JRS Eastman Group

About Us

Eastman Cast & Forge Ltd. (ECFL), a part of the prestigious **JRS Eastman Group**, has been at the forefront of manufacturing excellence since its inception in 1986. As a prominent player in the industry, ECFL has demonstrated its commitment to delivering high-quality tools and forging lasting partnerships with leading Original Equipment Manufacturers (OEMs).

ECFL is a part of the well-known **JRS Eastman Group**, which was founded in 1969 by visionary entrepreneur **Mr. J.R. Singal**.

With an impressive turnover of **USD 530 million** in the financial year (2024-25), the JRS Eastman Group has solidified its position as a key contributor to the Indian manufacturing sector. ECFL, in particular, operates on a large scale, with a sprawling manufacturing facility covering **44,000 square yards**. The company's state-of-the-art infrastructure enables it to produce over **24 million tools per annum**, serving a diverse range of industries.

ECFL has earned the trust and confidence of renowned OEMs such as **John Deere, ISUZU, Mahindra & Mahindra, CNH (New Holland), Tafe, Eicher, Ashok Leyland, Tata Motors Ltd., Sonalika, TVS, and VST**. These partnerships stand as a testament to ECFL's unwavering commitment to delivering superior products that meet the rigorous standards set by industry leaders.

To ensure efficient distribution and seamless customer service, ECFL has established a robust network of 40+ distributors, 1000+ dealers, and 6 Exclusive brand outlets across India. This expansive network enables the company to cater to the diverse needs of customers nationwide. ECFL's product portfolio encompasses a wide range of offerings, including hand tools, power tools, OEM tool kits, and cleansing solutions, ensuring that customers have access to a comprehensive array of reliable and innovative tools.

Recognizing the importance of after-sales support, ECFL has set up multiple authorized service centres strategically located to provide doorstep service to customers. This customer-centric approach ensures that users can rely on ECFL's prompt assistance and maintenance services whenever required.

Furthermore, ECFL has successfully expanded its reach beyond domestic boundaries. With touch points in 35+ countries across USA, Europe, Asia, and the CIS region, including key markets like Kazakhstan and Poland, ECFL has cemented its position as a global player. These international connections allow the company to cater to the diverse needs of customers worldwide and contribute to the growth of global industries.

Institutional sales are another core focus for ECFL, and the company has achieved 9 registrations with top-tier utilities in the country. An additional 20+ registrations are currently underway to support channel partners in supplying tools efficiently. By understanding market demands and conducting thorough market research, ECFL consistently introduces approximately 52 new items each year. This proactive approach enables the company to stay ahead of industry trends, meet customer expectations, and support its channel partners effectively.

Eastman Cast & Forge Ltd. remains dedicated to providing top-notch tools, fostering strong relationships with OEMs, and supporting its extensive distribution network. With a rich history of manufacturing excellence and a forward-thinking approach, ECFL is poised to continue its success story and contribute to the growth and development of the industry both domestically and globally.

3/8	10	16	20	80	100	160
1/2	13	20	20	75	50	240

1. High tensile polyester reinforced
2. Work under high pressure 300psi
3. Strong peeling adhesion between fibre and PVC
4. Light, flexible, non-kinking, non-twisting
5. UV & Ozone resistant, weather resistant
6. Can be used for jackhammer hose

Note - Weights mentioned are indicative weights subject to change without any intimation to customer.

HYBRID HOSE

E-5008 | POLYURETHANE TUNING

- **PROPERTIES:** UV-Resistant, Silicon Free, Good Vibration absorption, Supreme abrasion resistance, Consistent tensile for long life.
- **APPLICATION:** Pneumatics, Robotics, Automation, Cabling, Food Processing.

E-5009 | HYBRID AIR HOSE

- **APPLICATION:** A hybrid thermoplastic hose that provides durability and flexibility, is lightweight and has low drag resistance. It is non-mark-ing, oil-resistant and performs well under cold temperature to -40° F. This 300 psi hose is designed for a variety of pneumatic applications in industries such as construction and manufacturing.

CONSTRUCTION:

TUBE: Black, flexible TPE, ARPM Class B (Medium Oil Resistance)

COVER: Matte Black Flexible TPE, ARPM Class B (Medium Oil Resistance)

REINFORCEMENT: Polyester Yarn

E-50011 | LIGHT DUTY STEEL WIRE HOSE

- **TUBE & COVER:** Transparent PVC
- **REINFORCEMENT:** Steel wire spiral
- **APPLICATION:** The PVC steel wire hose is widely used for suction and discharge of water, oil and powdery articles in the industries, agriculture, engineering, foodstuffs and sanitation lines. The hose used for foodstuffs is made of special food grade PVC. It is non-toxic, without odor, and transparent.

E-50011 | STEEL WIRE HOSE FOOD GRADE

- **CHARACTERISTICS:**
- Lightweight, flexible with small bending radius.
- Durability against external impact, chemical and climate.
- Transparent, easy to check the contents.
- Anti-UV, anti-aging, long working life

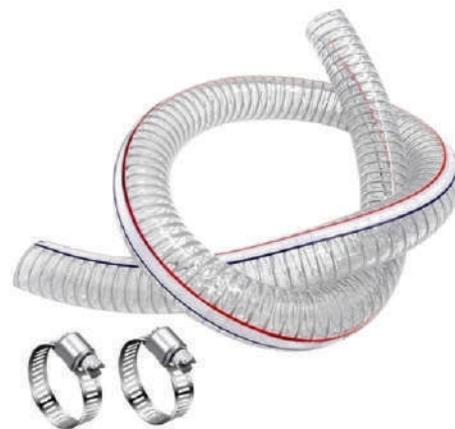

ID(mm)	WT(mm)	OD(mm)	Weight(mtr)

E-50012 | STEEL WIRE HOSE HEAVY DUTY

- **CHARACTERISTICS:**
- Lightweight, flexible with small bending radius.
- Durability against external impact, chemical and climate.
- Transparent, easy to check the contents.
- Anti-UV, anti-aging, long working life
- Meets the FDA standard and pass REACH and EU Food Grade test.

THERMOPLASTIC WELDING HOSE

E-5013 | POLYURETHANE TUNING

- **CONSTRUCTION**
- **INNER TUBE:** Plasticized PVC, Black
- **REINFORCEMENT:** Single braid of Synthetic Fiber
- **COVER:** Hyper Flame Retardant Thermo-compound, Red/Blue Colour
- **APPLICATION:** Specially designed for Oxy-acetylene welding and cutting equipment
